CORRIGENDUM

Mr. Sandeep Lakhwara, Managing Director had given an interview to CNBC Awaaz TV on April 12, 2016 the video transcript of which is available on the Company's website (www.deccangoldmines.com).

While talking about the impact on financials when production commences at Ganajur Gold Project as planned during end-2017, it was mentioned that production would be 60,000 ozs of gold annually based on processing capacity of 1000 tpd (tonnes per day).

Whilst the earlier planned production per annum was 60,000 ozs, this was subsequently reduced to 30,000 ozs per annum when the plant capacity was also changed from 2000 tpd to 1000 tpd. We expect more clarity on the production capacity after completion of the feasibility studies.

This clarification is being issued for information of stakeholders.

S. Subramaniam
Company Secretary
